GENERAL REMARKS

Nicole has attended Milnerton High School for the last five years. During this time she has acquitted herself well.

Nicole has also shown initiative, responsibility and honesty as a Tuckshop monitor for the last two years. Her flair for computers has led to her being a committed monitor in the computer centre - a task that took up a great deal of her time and which she carried out admirably. Nicole was also an enthusiastic committee member of the CATCH Society - a Christian group in our school. She also enjoyed playing hockey, giving of her best at all times.

Nicole is a well-liked and sensible young lady whose mature outlook has been reflected in her exemplary behaviour.

Our good wishes accompany her in the career of her choice.

I first came into contact with Nicole Lambon in 2001, when she started studying at Tygerberg College in the Information Technology Department.

Over the past two years I have become well acquainted with Nicole, as I have lectured her in a number of units.

Nicole has now completed her studies and I have been able over the past two years to make the following assessment:

Independent & Logical Thinking	4	Timeous	4
Appearance: Person	4	Adaptability	4
Appearance: WorkStation	5	Conscientious	4

Apart from the normal activities as a student, Nicole was also involved in the design of the 2002 Get-A-Life website.

Nicole is a trustworthy individual with fine characteristics.

I can recommend her without reservation for any position for which she is suitably qualified.

Yours faithfully
